

CORPORATE PROFILE

sovanta AG

»The simple is not always the best, but the best is always simple«

sovanta AG stands for simple and intelligent software solutions making business processes more efficient and companies more competitive. We support our customers' digital transformation: from the digitalization of existing processes in sales, logistics, and human resources to innovative applications setting new standards on the market and paving the way for new business models. We work strongly user-centered with methods such as Design Thinking, Data Thinking, and Shadowing.

Simple.

According to the motto "simplicity first", sovanta AG develops business apps that simplify everyday work in a wide variety of areas. Thus, employees can not only do their jobs better and more effectively, they can even enjoy using the software.

Intelligent.

The business apps are always enhanced by the latest technologies. Digital voice assistants and artificial intelligence enable the interaction between humans and systems.

Efficient.

With simplified interfaces and intelligent algorithms, the sovanta solutions support business processes optimally and individually. As a result, procedures become more efficient and new business potentials are uncovered.

As an overarching goal, sovanta AG aims to always deliver tangible and sustainable added value to the customer as well as to act as a reliable long-term partner. This is achieved through SHAPE[®], our model kit for the development and expansion of innovative business solutions. With the SHAPE[®] methods, technology components, and tools, we are able to develop apps more cost-efficient, faster, and absolutely future-proof. sovanta AG relies on established IT standard systems, such as SAP, web services, etc., and thanks to reusable software components, achieves innovative results quickly. Irrespective of whether the solutions are hosted in the corporate data center or in the cloud, also combined, hybrid approaches are always possible.

Over 100 customers, 250 projects, and one million users – companies in all industries and of all sizes already rely on our solutions and services. For example, adidas, Beiersdorf, Bayer, BASF, LIDL, SAP, and tesa.
