Apply now as

Intern* Software Development

 Heidelberg / Hamburg  From now on

*We focus on talent, not gender

Your profile

- Student* of computer science, business computer science or comparable studies
- Keen interest in web technologies and scalable back-end systems
- Good command of German and English
- Desire and time to support our team for three to six months

What we are looking for

- Sound knowledge of JavaScript and TypeScript
- Knowledge of frameworks such as Angular and SAPUI5
- Experience with iOS (Objective-C / Swift), Android (Java) and Unity 3D (AR / VR)
- Interest in back-end development with ABAP, Java or Node.js
- Keen interest in topics such as data science, IoT & Vocational Interfaces

What we offer

- The opportunity to work with the latest technologies in exciting customer projects
- Innovative working environment with a strong team spirit
- Mentoring, coaching and knowledge transfer
- Agile working methods, SCRUM, Kanban
- Flat hierarchies and fast processes
- Plenty of scope for further development depending on your interests and talents

Sounds interesting?

We are looking forward to receiving your application to
