Sounds interesting?

We are looking forward to receiving your application to:

Madeleine Meier
HR Specialist
career@sovanta.com
P +49 (0)6221 18733-105

What we are looking for

- Bachelor's degree in Business, Marketing, Social Science or a related field
- Experience defining programs, writing detailed functional specifications and delivering projects that meet rapidly evolving business needs
- Willingness to become an expert* on the Qualtrics XM Platform and related solutions
- Strong desire to develop in-depth product knowledge and learn about new technologies
- Configure technical implementations both independently and in a team environment
- Clearly communicate results and solutions to clients via online calls and email
- Excellent organization: clearly define project scope by gathering technical requirements and outline timelines and deliverables
- Work with our product and engineering teams to troubleshoot implementations
- Work up to becoming the primary point of contact for clients during implementation
- Be fluent in German and English

sovanta AG stands for simple and intelligent software solutions which make business processes more efficient and give companies a decisive competitive edge. More than 100 customers, 250 projects, and one million users – companies of all sizes and in all sectors already place their trust in sovanta solutions and services. These include, for instance, BASF, EWE, LIDL, SAP, and tesa.
